## Frankfurt – Prolight&Sound 2014

**Event Bar Q4** – A 4-head X-Y Bar pinspot system, the Event Bar Q4 produces small color-changing 5° beams from 10-watt CREE 50,000-hour Quad-Color RGBW LEDs. An extremely versatile unit, it is ideal for spotting tables, retail displays and room décor, as well as creating special effects at nightclubs and parties. With 4 operating modes and 3 DMX channel options (12, 14 or 25 channels), users have a lot of flexibility. Using DMX, for example, they can control each pinspot's colors and movements individually. The Event Bar Q4 also includes full dimming/strobing on each pinspot head, 12 built-in shows, and a 4-button DMX LCD display. It comes with built-in DMX-512 In/Out, IEC power In/Out connectors, an Omega bracket for truss mounting, and a built-in mount for a lighting stand (sold separately).
